We Want to Hear From You!

The Texas Department of State Health Services (DSHS) is conducting a statewide Needs Assessment for the Title V Maternal and Child Health Block Grant. Findings from the Needs Assessment will inform Maternal and Child Health programming for the next five years. DSHS would like to hear from Texas residents about community and family health needs and experiences across Texas. The survey takes about 15-20 minutes to complete, and you must be at least 18 years of age to participate.
